

Get Fit – Stay Fit

The Right Fabric & The Right Fit

for Every Season

The Right Fabric

- **Wicking:** Synthetic fabric that cools by “wicking” away sweat from your skin
 - *Coolmax:* Polyester fabric that cools in hot weather and warms in cold weather
 - *Supplex:* Waterproof, nylon fabric offering sun and antimicrobial protection
- **Cotton:** Nature’s most breathable fabric is hypoallergenic and offers sun protection
- Avoid rubber or plastic-based attire!

The Right Fit

- Choose loose and comfortable clothing
- Avoid wide-leg pants when running and biking
- Wear stretchy and fitted clothing for yoga or Pilates

For Every Season

- *Hot Weather:* Cool and breathable clothing
- *Cold Weather:* Sweat-wicking fabrics for inner layer and insulating layer on top. Cover your hands, head and ears
- *Wet and windy:* Wear an outer layer for protection against the elements
