

NURSE AMBASSADOR PROGRAM

We invite you to become a Nurse Ambassador

The Regional Nurse Ambassador will serve as a point of contact for U.S. Public Health Service officers assigned to new duty stations in Indian Health Service, ICE Health Service Corps and Bureau of Prisons. One Regional Nurse Ambassador will be assigned to each of the 10 established HHS regions. The Regional Nurse Ambassador will coordinate with the Agency/Area Liaison, local PHS Officer groups and the Area Nurse Ambassador to assist the new officer with establishing a supportive network.

The Area Nurse Ambassador will serve as a point of contact in the local area and agency to provide specific details on culture, community resources, and serve as part of the supportive network for the officer.

Please contact LT Ramsey @ Terrin.Ramsey@TCHEALTH.ORG and CDR Coffey @ Qiana.l.coffey@ice.dhs.gov for additional information.

Nurse Ambassador Program

Who: Nurse Officers

What: Locally assigned nurses (Ambassadors) help newly assigned nurses as they transition to the community.

Why: To create an environment that fosters professional work relationships and increases morale.
