NCPS NEWS

The Inpatient Intervention and Case Log is now available on the NCPS applications and forms section on the NCPS webpage. If you are an inpatient pharmacist and are interested in applying for NCPS certification reach out to your area representative if you have any questions on these new forms.

Sample Patient Encounter Log

Since our transition to a more comprehensive care model, the NCPS Committee has received many questions about the Patient Encounter Log. Here is a sample patient encounter log for your reference. Each practice is different and this log should reflect the vast scope of practice that we are involved in as we innovatively lead pharmacists across the nation.

Encounter	Date	Diagnosis addressed at this encounter
1	x/x/xx	DM2, immunizations, hypothyroidism
2	x/x/xx	DM2, immunizations, CVD, tobacco cessation
3	x/x/xx	Anticoagulation, CVD, immunizations, HTN
4	x/xx/xx	DM2, HTN, immunizations
5	x/xx/xx	DM2, immunizations, CAD, CKD
6	x/xx/xx	Tobacco cessation, DM2, asthma, immunizations

Note: All patient encounters must be within 12 months of applicant submission date. Each encounter must include at least two diagnoses, or one diagnosis and one preventative health intervention.

NCPS members rotate every 3 years. If you are interested in serving on the NCPS you should contact your area pharmacy consultant or your NCPS representative for more information.
