<b>Number of Patient Encounters within the reported Fiscal Year (FY)</b>	
<b>Number of Patients with at least one HIV clinic visit within the reported FY</b>	
<b>Number of patients added to the clinic during the reported FY</b>	

### HIV Clinical Outcomes

Measure	Description	Result
Baseline Viral Load (VL) <50 copies/ml*	Number of patients with VL <50 copies/ml at referral to pharmacist-managed clinic during the reported FY	
Baseline VL <200 copies/ml*	Number of patients with VL <200 copies/ml at referral to pharmacist-managed clinic during the reported FY	
Current VL < 50 copies/ml*	Number of patients referred to the clinic within the FY with VL <50 copies/ml at the end of the reporting period or at discharge from clinic (whichever occurs first)	
Current VL <200 copies/ml*	Number of patients referred to the clinic within the FY with a VL < 200 copies/ml at the end of the reporting period or at discharge from clinic (whichever occurs first)	

\*VL data will only be collected for patients taking ART >90 days. Outcome data should be reported on only those patients with new referrals to the clinic within the reported fiscal year.
