

Scientist Professional Advisory Committee  
2019 Bibliography

Scientist Officers conduct high-quality science at their duty stations—in fields ranging from psychology to nutrition to molecular biology and beyond. The annual SciPAC Bibliography is a compilation of Scientist Officers’ publications and presentations. The bibliography is based on submissions and does not necessarily represent all works completed by Scientist Officers. It does highlight the wide array of scientific expertise as well as impact and reach of the Scientist Category. Scientist Officers names are shown in bold.
