B	Claims for Compensation Availability of Clinical Information	1

Section A. Purpose and Scope

The regulations set forth in Section B of this INSTRUCTION prescribe the conditions under which clinical information in the possession of PHS will be supplied, upon request, to other Federal departments or agencies when a claim for compensation has been filed with such departments or agencies based on death or injury incurred by an officer or former officer.

Section B. Claims for Compensation
Availability of Clinical Information

**§ 21.401 Claims for compensation;
disclosure of relevant clinical
information.**

Relevant clinical information in the records or in the possession of the Service concerning a commissioned officer or a former commissioned officer of the Service may upon request therefor be furnished to a Federal department with which a claim for compensation or other benefit has been filed based on the death of, or an injury or disease incurred by, such officer or former officer.
