Preferred order of documents: Submission Checklist, Disclosure statement, DD-2807-1, PHS, 7083, DD-2808, PHS-7044-1 (if needed), DD-2813, additional medical records

All forms and provider instructions are included in a single PDF file, "PHU Appointment Documents," which can be found on the CCMIS website under Forms/Medical.

You must scan all documents and test results into a SINGLE PDF and submit them using the medical section of eDOC-U with the document name, "Periodic Health Update."

Your PHU should be screened for completeness within two-three working days after your submission. Check your readiness dashboard 4-5 days after your upload to see if the date of your last PHU is updated. If it is not, check your emails and junk mail folders for an automated email stating that your PHU was rejected and why. The rejection emails are sent to the email addresses that you have listed on your RDB Self Service page. Be certain those email addresses are current. If after following these steps, you still have questions about the status of your PHU submission, contact PHSMACCHO@hhs.gov.
