

The eOPF fax line is now up to date. We are currently processing received documents upon receipt.

Please review your eOPF and ensure that all documents listed on the Promotion Checklist of the Promotion Information Page are present and legible. If you have previously sent a document that is not in the eOPF, please resubmit it to the eOPF fax line as soon as possible.

Please note that promotion boards do not view your documents through the eOPF. They view documents through a separate application; therefore board members do not see document dates or the date a document was entered into your file (archive date).

Best wishes for success in the upcoming promotion board cycle.
