The Public Health Service Commissioned Officers’ Awards Program (COAP) provides a means to give formal recognition to deserving officers whose accomplishments or achievements are of outstanding or unique significance to the missions of the Corps, Department of Health and Human Services (HHS), and non-HHS organizations to which Corps officers are detailed.

PURPOSE

- Encourage exemplary performance;
- Improve Espirit de Corps among officers.

AWARD WRITE-UPS – Hints & Tips

The following list includes tips for individuals writing nominations to ensure the narrative contains all the required sections and clearly describes the accomplishments and impacts achieved.

- Include an introductory paragraph that describes the general criteria for the award being bestowed and the time period covered by the nomination.
- If applicable, state the background to provide perspective on how the honored officer addressed an issue/challenge.
- Narrative should describe how the officer met the award criteria and how his/her achievement is above and beyond the officer’s position.
- If the nomination includes work of others, the write-up must clarify how the individual’s achievement is beyond that of others.
The award must be based on achievements that have not been the basis of a prior award, unless the previous award is a portion of a long period and significant higher level of achievement.
