

Bureau of Prisons Agency Report

May 2009 PharmPAC Meeting

- BOP Virtual Central Processing Pharmacy deploying in the next couple of weeks.

- Swine Flu: BOP is currently in Response stage of our BOP Pandemic Flu Plan. BOP Tamiflu stockpile is on alert and institutions, along with the Regional Chief Pharmacists are finalizing logistical issues related to distribution upon approval from the Medical Director. Note: Stockpile dispensing is currently restricted to WHO Phase VI of their staging processing. We are currently in Phase V. BOP Central Office continues to meet with Regional Staff, assess the situation, and communicate with Roche. Many Regional staff are involved in state public health teleconferences.

- BOP Multi-Disciplinary Orientation for new BOP health care staff is scheduled for the week of May 11th.
