Office of Preparedness and Emergency Operations

Pharmacy Logistics

Presented by
CDR David Bates, R.Ph.
Chief Pharmacist
Pharmacy Logistics
Outline

- Pharmacy Cache Overview
- Standard Operating Procedures
- ACLS Drug Bags
- Field Re-Supply
- Custody Receipt
- New Items for 2007
- Growth of Pharmacy Logistics
Pharmacy Logistics Mission Statement

We are committed to deliver a quality pharmaceutical product to the designated Office of Preparedness and Emergency Response Teams within the Office of the Assistant Secretary Preparedness and Response, in a timely manner and at the proper temperature controlled environment, so that the assigned medical mission will be successful in meeting the pharmaceutical needs of the disaster situation whether stateside or overseas.
Office of Preparedness Emergency Operations
Dr. Yeskey

Deputy Director, Logistics
Maribeth Love

Preparedness and Response Support Section
Mary Ann Veitch

Chief Pharmacist, Pharmacy Logistics
CDR. David Bates, R.Ph.

Pharmacy Logistics Deputy
LCDR. James P. Czarzasty

LC Frederick Pharmacy Technicians:
Cecelia, Paulette, Jill, Zuleima, Krissy
Programs Requiring Pharmacy Logistics Support

- Disaster Medical Assistance Teams
- Veterinary Medical Assistance Teams
- International Medical Surgical Response Teams
- Rapid Deployment Force
- Applied Public Health Team
- Incident Response Coordination Team
- Federal Medical Shelter
- Mobile Intensive Care Unit
- Clinical Laboratory Improvement Act Training Supplies
Pharmaceutical Cache

- Cache is delivered on a temperature controlled truck maintained at approximately 65ºF.
- Cache consists of:
  - 2 Tri-Walls (1 Pharmaceuticals and 1 IV Fluids)
  - 1 Electric Cooler for refrigerated medications
  - 1 Controlled Substance Case
- Cache is to be maintained on site at 65ºF for proper storage.
DMAT Pharmaceutical Cache
IMSuRT Pharmaceutical Cache
IMSuRT Pharmaceutical Cache
VMAT Pharmaceutical Cache
IRCT Pharmaceutical Cache
MICU Pharmacy
Cache Log Book

Contents of Log Book:
- Policy and Procedures
- Pharmaceutical Cache List
- Cache List for Physicians
- Tri-Wall Layouts
- Drug Usage Logs
Pharmaceutical Cache

- Detailed Cache list:
  - Brand and Generic names of medications
  - Drug Classification
  - Quantity on hand, NDC, Lot, Expiration and Location within totes/pelican/tri-wall.

- Refrigerated items are to have temperature logs filled out on a daily basis (twice daily is optimal).

- Controlled Substance logs should be maintained and returned to LC-Frederick.
Prescriptions must be written for all controlled medications dispensed and returned to LC-Frederick for accountability.

If order is on Patient treatment form, please send a copy to LC-Frederick

All medications are to be dispensed in vials with Prescription labels that are provided.

One Cache is used per ASPR team deployed
The DEA has ruled that the Pharmacy Caches are under the control of Pharmacy Logistics for accountability and control. The Disaster Field Office or Joint Field Office do not have control of these caches.
ACLS Drug Bag
ACLS Drug Bag Program

- Bags distributed to all Level-1 and Level-2 DMAT teams
- Team Physician provides a copy of DEA License to LC-Frederick for pharmacy records
- Team Physician is responsible for storage and security of drug bag
- LC-Frederick will distribute bags and monitor expirations for rotations
Distributed with complete Thomas Pack or Strike Team Kit

Comes with Prescription pads for narcotic dispensing

Need to have written documentation of all medications used, either via Prescription blank or copy of a Patient Treatment Form

Drug bags are to be returned to LC-Frederick after mission
Pharmacy Unit Leader

- Assigned to IRCT Command Center
- Pharmacy Advocate to IRCT Leadership, Operations, Logistics, Administration, Planning, etc
- Responsible for cache assignment to teams
  - Custody Report, Controlled Substance documentation
  - Team orientation to cache, SOPs
- Liaison to Team Pharmacists
- Pharmaceutical Resupply
  - Review resupply requests, route to LC-Frederick
  - Receive resupply shipments, distribute to teams
- Local Pharmaceutical supply
- Controlled Substance accountability
Reorder requests get sent to the IRCT

Once an order is approved by the Pharmacy Unit Leader the request is sent to the LRC and LC-Frederick.

LC-Frederick will fill the order and have it shipped the next day to the IRCT Pharmacy Unit Leader who will have the items brought to the sites.
All Pharmaceutical supplies deployed from LC-Frederick will be shipped with a Personal Custody/Record Hand Receipt (Form 439). The team member who receives the cache will sign the Form 439 as acknowledgement. This cache is on loan to the team until the mission is over and cache is returned back to LC-Frederick.
Pharmacy Caches are pre-positioned at four Logistic Centers in the United States.

- LC-Atlanta (4 DMAT Rx Caches)
- LC-Fort Worth (4 DMAT Rx Caches)
- LC-Moffett Field (5 DMAT Rx Caches)
- LC-Hawaii (2 DMAT Rx Caches)

This pre-positioning allows for quicker response to marry up a pharmacy cache with a team’s Basic Load.
Clinical Pharmacist

- Assigned to ASPR Team
- Team Pharmacy operations
  - Patient care (dispensing, counseling, etc)
  - Inventory Management
  - Controlled Substance accountability
